ESTOS PRODUCTOS PUEDE APLICAR PARA SUMAR PUNTOS EN LOS SIGUIENTES CRITERIOS LEED

Sustainable Sites		Materials and Resources	
Heat Island effect -non roof-	Crédito 7.1	Building reuse	Crédito 1
Heat Island effect -roof-	Crédito 7.2	Construction waste managment	Crédito 2
Energy and Atmosphere		Materials reuse	Crédito 3
Minimum energy performance	Pre-requisito 2	Regional materials: manufactured regionally	Crédito 5.1
Optimize energy performance	Crédito 1	Regional materials: extracted regionally	Crédito 5.2

Ladrillera Mecanizada

Ladrillera Mecanizada es la más grande productora y exportadora de productos de barro en México. Reconocida internacionalmente como empresa dedicada a la manufactura así como a la comercialización de teja, piso, ladrillo y línea estructural; productos 100% barro natural.

La durabilidad, su fácil mantenimiento, el gusto que producen ante la vista y la variedad de colores clásicos, rústicos ó envejecidos y contemporáneos, son solo algunos de los beneficios que poseen.

Miembro de

La **certificación LEED** es un método de evaluación de edificios, a través de pautas de diseño objetivas y parámetros cuantificables. La certificación evalúa el comportamiento medioambiental que tendrá un edificio a lo largo de su ciclo de vida, sometido a los estándares ambientales más exigentes a nivel mundial. La evaluación final la otorga el Consejo de Edificios Verdes de EEUU, (U.S. Green Building Council, USGBC), organización sin fines de lucro que impulsa la implementación de prácticas de excelencia en el diseño y construcción sustentable.
